JUNGLE OF HIS CHOOSING
By SHELDON YAVITZ

Genre: Action / Crime / Drama / Thriller / Suspense /

Summary: A Miami criminal defense attorney is deep into drugs, money laundering, kinky sex, and murder in Fort Lauderdale, Miami, Washington, DC, the Bahamas, Colombia, Cuba, Haiti, Jamaica, Venezuela, and Sint Maarten.

A tantalizing story ... A genuine page-turning suspense novel with action drifting from Miami to Colombia to Cuba to Haiti to the Bahamas ... Sheldon Yavitz etches each character with blunt detail, driven by terrific plot twists that hold the reader riveted to the spectacular story, and presents an intriguing gestalt so shockingly typical of the world of drug-trafficking and brutal sex. No one is more qualified than Yavitz to offer such an authoritative and compelling look into today's society depicting the lifestyle of Stanton Pollard, the controversial, dapper Miami criminal defense attorney, and his cohorts.

Sheldon Yavitz wrote this 736-page novel as a cross between reality and fiction, tempered by time and perspective. The author, semi-retired now, was a criminal defense lawyer for 26 years whose career was terminated by a federal prison sentence. He writes from experience, and while put away — that gave him time — he wrote this story. Though the manuscript lingered for more than 10 years, he now shares this story with us, ripe for our time.

Though presently not part of the manuscript, Shelly's life is filled with stunning episodes:

- He represented serial killer "Mad Dog" Paul John Knowles and landed in jail on a contempt citation because he refused to violate his attorney-client commitment.

Read • Heed • Succeed

- He ran (though unsuccessfully) for Circuit Judge in Miami-Dade County while beginning to earn himself the label “premier drug lawyer in South Florida.”
- He appeared before a U.S. Senate subcommittee chaired by Senator John F. Kerry, representing his convicted drug smuggler clients who testified about gun-running to Nicaragua for the CIA and carrying drugs on return flights. (See “Drugs, Law Enforcement and Foreign Policy” aka The Kerry Report.)

Here’s another aspect of this novel: it’s a historical work depicting a period that no longer exists. During the 1980s, economic hardships and the drive to make money were catalysts for Americans to enter the ugly drug trade. The result? As depicted in the book, in the end they did not benefit — they wound up dead or in jail, and people from other lands took over. Only one, the journalist in pursuit of telling the novel’s main character’s story, winds up living the good life. However, think of it, he’s corrupt, too. There’s not a single character in this novel — all touched by the world of crime — who had a happy life.

I have entered into a publication and representation agreement with Mr. Yavitz, the author, for the publication of his 736-page novel, *Jungle Of His Choosing*, and the sale of subsidiary rights.

SYNOPSIS:
JUNGLE OF HIS CHOOSING
By SHELDON YAVITZ

Stanton Pollard, the controversial criminal defense attorney, triggers a series of new questions following the lawyer’s death in a fiery car crash in the mountains of Jamaica: Was it an accident, murder or faked? As a prime suspect in a call girl’s murder, reputed to be a CIA operative with links to the Colombian drug cartel, Cuba’s Castro, and Haiti’s “royal family,” and helpful connections in the Bahamas and the money-laundering tax haven of Sint Maarten, the Miami attorney amassed fortunes and bathed in a lifestyle of splendor with wife Sue Ann. When she filed for divorce and wished the husband dead, she opens Pandora’s box for the DEA, the IRS, and a drug-smuggling kingpin client seeking revenge, and who plots with Sue Ann to carry out her obsessive wish. Fitzgerald Moore, journalist and author, contracted to write an article for a major national magazine (then expanded to a nonfiction book on the attorney’s life and questionable death), sets out to research and confirm facts. His interviews with some 40 persons in the U.S., Jamaica, the Bahamas, and Colombia unravel Pollard’s life. In Manizales, Colombia, he interviews the “Doctor,” then clutches the golden cross about his neck as a bullet clip snaps in a hand gun following the thumbs-down gesture of the Doctor. In the final segment, Moore, on an expensive sailboat with a bikini-clad blond, is no longer interested in writing the nonfiction book. He is living a different, new life.
